

Corporate Overview

Mission

DermTeam's mission is to enable skincare professionals to provide superior care and service to their patients with an online store.

Partnership

DermTeam partners with skincare professionals to allow them to promote their practice online with a customized web presence and to distribute their preferred line of skincare products online. DermTeam takes the hassle and complexity of getting online, selling online, and servicing customers' online purchasing needs. By partnering with DermTeam, skincare professionals save time and money and are therefore able to focus on the more important healthcare and patient-facing functions.

The skincare professional shares the revenue generated from online customers with DermTeam. DermTeam enables the partner to sell their preferred products from a website and online store that is uniquely branded and designed with the professional's own look and feel.

Services

Web Plus is DermTeam's premiere service offering for skincare professionals. Web Plus allows skincare professionals to start selling their own product selection with a uniquely branded online store.

Outstanding Service

DermTeam safeguards the trust and relationship between the skincare professional and the patient by delivering world-class customer service. Shopping from DermTeam online stores is easy, private, and secure. Products are shipped in a timely manner. Customer service is delivered in a responsive, accurate, and friendly manner. By focusing on the high standards of the patient, DermTeam reinforces our mission of helping skincare professionals deliver superior care and service.

History

DermTeam is a privately held corporation headquartered in Los Angeles, California, with operations throughout the United States. Founded in 2004, DermTeam is well funded and professionally managed and focused on a growth strategy that puts the success of the dermatologist first.
